Dear Student,

Hope this email finds you well.

After reviewing your application and completion of the interview process we believe that you possess the skills, enthusiasm, and dedication required to contribute effectively to our research team.

Congratulations!

We are pleased to extend an offer of internship in the summer of 2023 at C-IoT. Your role will be as a Research Trainee

Internship Details are as follows:

Position: Research Assistant Intern Duration: 12th June 2023 to 21st July 2023**Research Supervisor:** Prof. Ashok Kumar Patil**Duration:** 6 Weeks in person**Compensation:**

- Completion certificate upon successful completion of the internship and Demo.
- 2 credits will be awarded **if and only** if the work is translated into a publication and/or working prototype.
- If you choose to work from home, you will get only a certificate. Work from home is not eligible for 2 credits
- The approval of the Director is final in this regard to determine if the work is sufficient to award 2 credits..

Working Hours: 40 hours a week. – 8 hours a day

As a Research Assistant Intern, you will be involved in various aspects of our ongoing research projects.

Your responsibilities may include:

- Performing literature reviews and data collection.
- Setting up and/ or Conducting experiments or surveys under the guidance of your research supervisor.
- Analysing and interpreting research data.
- Assisting in preparing research reports and presentations.
- Collaborating with the research team to contribute to project goals.
- Drafting the paper for publication
- A working prototype as determined by your guide.

Best Wishes!
